YOU MEAN EVERYTHING TO US

You are foremost in whatever we think and do... which is why, for us, you are everything that we dream of... everything that we toil for... the only factor that matters. The very essence of our purpose and will to work comes from you. All that we do is centred around you. In short, WE means nothing without the YOU!

சொல்லில் மேன்மை!

சொல்லில் உண்மை!

Selvaraj (Nuvraj) is a professional industrial photographer and videographer, having been in this field for close to two decades now. With a repertoire of more than 400 assignments that have delighted nearly 150 clients throughout India and across the world, Nuvraj has stamped his excellence in every shot taken and every angle composed. He worked his way up the ladder of success from the year 1994, with his first stint as a renowned tabloid. Following this, he assisted reputed photographers, working under their tutelage to stay on a continuous learning curve. Then, the big decision to move on and stand out of the crowd was taken by him, when he founded JJ Stills, a company that has, to this day, delivered time and again by meeting even the most challenging demands of the clients. His work on the Ramana Drydock in the state of mayana, and in the Maradip Pet, capturing technical shots of the client's historical Directional Drilling (IDD) technology for reputed oil majors, won him accolades in the industry.

Nuvraj has also served as guest faculty in IITSC (Industrial Firm Development Corporation of India) for a period of one year (2019-2021).

As part of his philanthropic initiatives in creating social awareness, he participated to begin with, for free, the deployment of "Camera School for Dab" on basic photography techniques. The renowned Lions Club also honored him with their BEST valued 50th member in the year 2019 for creating such awareness through this free initiative for the deaf students.

Apart from photography, Nuvraj is also an acclaimed videographer with an excellent team that takes on any daunting assignment.
