ENGLISH
as a tool for life empowerment

**ENGLISH
LANGUAGE
IMPARTED AS A
TOOL FOR
EMPOWERMENT**

exclusively for teachers

a **REX FOR LIFE** initiative
from language skills to life skills

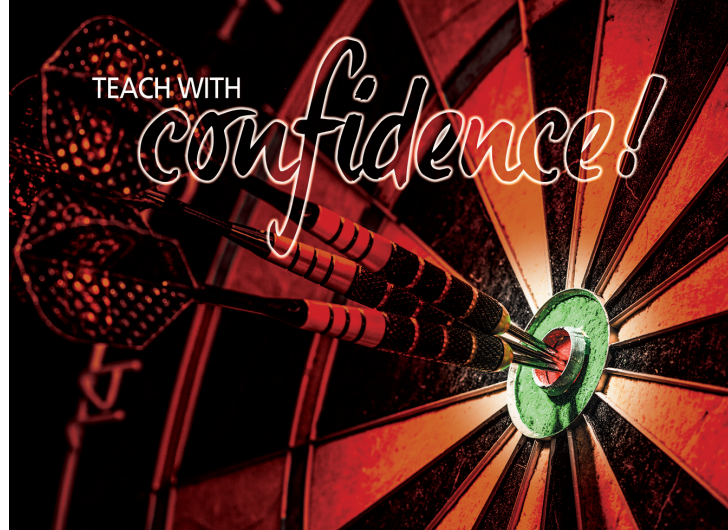

In today's competitive world, mere survival calls for basic skills in communication... but, is this enough? That's the question one should ask oneself when considering one's options to lead life into the challenging, uncertain future!

ELITE
TEACHER

(English Language
Imparted as a Tool
for Empowerment)

the one-of-a-kind English Language
Training Programme for **TEACHERS** that
will change your outlook in life... forever!

TEACH WITH

confidence!

As a trainer and teacher myself, I have always felt the need to be ever refined in my communicative skills - both spoken and written. How else would I be able to tell my students what's in my mind or to get things across to them? Hence, teachers form a crucial part in my ELITE training programme.

With a great deal of applied thought and innovation, I have developed certain simple yet very effective tools and methodologies that refine the basic abilities within you, the teacher, to levels of hitherto unseen excellence. Well, it is wrong to expect instant results with quick-fix solutions... by this, I mean that a time span of at least 6 months is required to complete the metamorphosis in your language skill set... and, it doesn't end there. There has to be this constant upgrade and follow-up that will enable you to reach and realise higher levels of linguistic excellence.

B. Barnabas Rex, an English language trainer and life skills enabler, brings to the table in-depth expertise with more than two decades of experience in the English language. His innovative teaching / training methodologies feature simple yet highly effective teaching tools and lesson modules. Rex has trained personnel in organisations and institutions, in bettering their English speaking and writing abilities, over a six-month / one-year English Language training programme that is tailored to suit specific learning requirements.
