ENGLISH
as a tool for life empowerment

**ENGLISH
LANGUAGE
IMPARTED AS A
TOOL FOR
EMPOWERMENT**

exclusively for students

a **REX FOR LIFE** initiative
from language skills to life skills

In today's competitive world, mere survival calls for basic skills in communication... but, is this enough? That's the question one should ask oneself when considering one's options to lead life into the challenging, uncertain future!

presenting

ELITE

STUDENT

(English Language Imparted as a Tool for Empowerment)

the one-of-a-kind English Language Training Programme for **STUDENTS** that will change your outlook in life... forever!

As a trainer and teacher, I have always dreamt about empowering children in the age group of 10-16 years, for, this is the most crucial period for learning (especially developing a passion for learning and mastering languages) in the life of a human being.

With a great deal of applied thought and innovation, I have developed certain simple yet very effective tools and methodologies that refine the basic abilities within a child to levels of hitherto unseen excellence. Well, it is wrong to expect instant results with quick-fix solutions... by this, I mean that a time span of at least 12 months is required to complete the metamorphosis in a child's language skill set... and, it doesn't end there. There has to be this constant upgrade and follow-up to enable the child to reach and realise higher levels of linguistic excellence.

B. Barnabas Rex, an English language trainer and life skills enabler, brings to the table in-depth expertise with more than two decades of experience in the English language. His innovative teaching / training methodologies feature simple yet highly effective teaching tools and lesson modules. Rex has trained personnel in organisations and institutions, in bettering their English speaking and writing abilities, over a one-year English Language training programme that is tailored to suit specific learning requirements.

STRATEGIC ROAD MAP ▶

Areas of expertise

- Voice development
- Identifying various syllabic sounds
- Mastering various syllabic sounds
- Pronunciation and diction
- Mouth, tongue and throat / neck muscle enhancement
